

GIORDANA | EXO SYSTEM

**giordana**

Giordana EXO™ System garments mark the advent of an entirely new class of performance cycling apparel. Their unique construction centers around the strategic placement of panels and materials to enhance muscle performance and reduce aerodynamic drag. The collection name, an abbreviation for external optimization, embodies the meaning of *exo*; a Greek prefix denoting outside, outer or external and defines where the benefits of Giordana's EXO System are derived.

GIORDANA | FORMARED-CARBON

MEN'S

FORMARED-CARBON™ is the elite apparel collection from Giordana. These award-winning pieces consistently set the bar for technical advancement, innovation and performance. FR-CARBON garments contour perfectly to the body, forming a 'second skin' that makes every movement natural and comfortable. The fabrics, features and level of detail in FR-C™ garments endow them with the fit and performance characteristics that other clothing simply can't achieve.

GIORDANA | TRADE

A photograph of two cyclists riding on a paved road. The cyclist in the foreground is wearing a black jersey with a white and red patch on the sleeve, black shorts, a white helmet, and sunglasses. The cyclist behind him is also in black gear and a helmet. The background shows a lush green forest with trees in motion, suggesting speed. The road is grey and curves slightly to the right.

## MEN'S TRADE

Giordana TRADE garments feature original kit designs that celebrate Giordana and our partner brands. We continually work with cyclists at all levels, including many professional athletes, to create, modify and perfect our line. Prototypes are put to the ultimate realworld tests, and as a result, Giordana collections benefit from the input of the toughest critics in the sport. The TRADE collection is comprised of multiple levels of kits to accommodate every style and fit preference. From the standard issue pro level pieces all the way up to premium level, you select your kit with the options and quality only Giordana TRADE can provide.
